Remove giblets from turkey cavity (discard or use for gravy). Clean turkey and wipe dry with paper towels. Mix mustard, soy sauce, lemon juice and oil with a wire whisk or shake in a jar.

Season the bird with salt and pepper and place in a large roasting pan. Stuff the lemon rinds and 3/4 of the herbs into the turkey cavity. Pour marinade all over the turkey and cover with remaining herbs. Cover with foil and bake for 3 1/2 hours. Remove foil and continue to bake 2 hours, basting every 15 minutes. Turkey is done when temperature reaches 160 degrees. Let set, covered, for 20-30 minutes, turkey will continue to cook to 165 degrees.
