

# Pumpkin Peanut Butter Dog Treats

## Description

An inexpensive treat for the dogs!

## Ingredients

- 2 1/2 cups flour
- 2 large eggs
- 1 1/4 cup Pumpkin Puree NOT pie filling
- 1/4 cup peanut butter

## Instructions

1. Preheat oven to 350° F Place all ingredients in a bowl.
2. Stir until thoroughly combined.
3. Add water as needed to combine the ingredients. Roll out dough to 1/4" thickness and cut with dog cookie cutters.
4. Place cookies on a greased cookie sheet.
5. Bake for 20 minutes (if you want a really hard cookie, bake for 5-10 minutes longer). Leave in the oven to cool overnight. Or, cool completely on a wire rack before serving.

## Notes

These dog biscuits are more on the delicate side. Also, since they are not baked hard, they will not last as long. I would recommend less than one week in a dog treat jar, 3 weeks in the refrigerator and 2 months in the freezer.

## Summary

**Yield:** 12

**Prep Time:** 20 minutes

**Cuisine:** American
