

Granola

Description

This simple-to-make version of an old favorite allows you to avoid the additives and hydrogenated oils that are found in most commercially processed granola.

Ingredients

- 6 cups gluten-free rolled oats
- 1 cup Chopped Almonds
- 1 cup raw, shelled sunflower seeds
- 1/2 cup sesame seeds
- 1 1/4 cups unsweetened coconut
- 1/2 cup honey
- 1/2 cup organic coconut oil

Instructions

1. Preheat oven to 325° F.
2. Mix dry ingredients together in a large bowl.
3. Combine honey and oil in a saucepan and heat to a liquid consistency. Pour over dry ingredients. Mix well. Flatten into a baking pan.
4. Bake for 15-20 minutes. Cool and store in an airtight container. Serve with milk substitute and/or fresh fruit.

Notes

Substitutions: You can prepare this recipe with many different nuts and seeds and even dried fruit if you are not diabetic. For a change I sometimes add 1/2 cup of almond butter or tahini. You can also try brown rice syrup instead of honey.
