Spread half of the filling mixture to within 1/2 inch of the edges of the dough.

Roll up as you would a jellyroll and pinch gently to seal the ends.

Repeat the process with the other sheet of dough and remaining filling.

Wrap the rolls in plastic wrap and place them in the freezer for 30 minutes to firm up for easier slicing.

Preheat the oven to 400°F.

Remove the rolls from the freezer and slice them into 1/2-inch thick slices.

Arrange them in a single layer on a baking sheet and bake for 8 to 10 minutes, or until the pastry is puffed and golden brown.

Serve immediately.
