Notes

Note: This may seem like a lot of components but with a little prep-ahead it comes together quite fast! Tips: 1. Shred your cabbage the night before & make the slaw dressing (keep it separate until 30-45 minutes before serving). 2. Pre-mix your waffle dry ingredients & chicken coating in separate bowls and cover with plastic wrap until ready to use (they can sit out on the counter overnight). 3. Marinate chicken in a large ziplock overnight. Then all you have to do the day of is to mix the slaw, add the wet ingredients to the waffle batter (and cook), and coat the chicken and fry. Everything will come together at the same time with minimal effort!
