## Fresh Cole Slaw

Put the sliced cabbage into a large bowl. Add 1 tablespoon of kosher salt and cover with water. Let the cabbage stand in the salt water bath at room temperature for one hour.

Drain and dry the cabbage thoroughly in a salad spinner (or press between kitchen towels). Put the cabbage into a large bowl.

### **Dressing**

In a small bowl, combine the red wine vinegar, garlic and pepper with 1/2 teaspoon of kosher salt and whisk. Add the olive oil slowly and continue to whisk. Keep whisking until thoroughly blended and the dressing is opaque, about a minute or longer.

Lightly coat the cabbage with the dressing. You can prepare the cole slaw up to several hours before serving.
