### Basic Bloody Mary Mix

#### Description

This Bloody Mary mix sticks to the basics: tomato juice, horseradish, hot sauce, celery salt, and Worcestershire sauce. It makes a balanced drink with citrusy brightness and a little heat. If you're the type who treats your Mary as a pre-brunch snack, load up on garnishes like olives, pickles, celery, or pickled prawns. It's best to make the mix the night before you want to serve it so the flavors can meld, then just mix with vodka and serve.

#### Ingredients

- 3 cup tomato juice
- 1 1/2 oz fresh lemon juice, about 1 medium lemon
- 1 1/2 oz fresh lime juice, about 2 medium limes
- 1 tbsp worcestershire sauce
- 2 tbsp peeled and finely grated fresh horseradish
- 1 1/2 tsp kosher salt
- 1 tbsp hot sauce, like Tabasco
- 1 tsp celery salt
- 3/4 tsp black pepper

#### Instructions

For the mix:

Place all of the ingredients in a nonreactive 1-quart container and whisk until well combined. Cover and refrigerate until the flavors meld and the mix is chilled, at least 2 hours or preferably overnight. The mix will keep refrigerated in a container with a tightfitting lid for up to 24 hours.

For serving:

When ready to serve, whisk the mix to recombine.

Fill 8 highball glasses halfway with ice. Pour 2 ounces of the vodka and 4 ounces of the mix into each glass and stir to combine. Garnish each with a celery stalk or dill pickle spear and a pickled green tomato, if using.

#### Notes

For serving:

Ice

2 cups (16 ounces) vodka

Celery stalks (optional)

Dill pickle spears (optional)

Pickled green tomatoes (optional)

### Caribbean Rum Punch

#### Description

The old rhyme goes, 'One of sour, two of sweet, three of strong, four of weak.' Any fruit juice can be used. Serve chilled over ice, with fruit garnishes and a sprinkling of grated nutmeg."

#### Ingredients

- 1 cup fresh key lime juice
- 1 cups simple syrup - see notes below
- 3 cups Prusser's Rum
- 2 cups orange juice
- 2 cups pineapple juice

#### Instructions

1. In a pitcher, combine lime juice, simple syrup, rum and orange juice. Add a few dashes of angustura bitters and some grated nutmeg to taste. Serve chilled over ice.

#### Notes

It takes about 6 limes to get a cup of juice.

You can make simple syrup by heating equal parts sugar and water in a saucepan until the sugar dissolves.

Simple syrup and bitters can also be purchased rather inexpensively at the liquor store.

I grated fresh nutmeg over the top of each glass and stirred it in.

The punch has a really wonderful flavor and a bit of a delayed effect so watch out!

### Cherry Limeade

#### Description

Cherry limeade, made with lemon-lime soda, cherry syrup, a splash of maraschino cherry juice, and fresh squeezed lime juice, is a refreshing and delicious summer drink.

#### Ingredients

- 2 tsp maraschino cherry juice
- 1 oz Grenadine
- 1 lemon-lime soda - 7-up, sierra mist or Sprite
- Crushed Ice
- 2 wedges lime

#### Instructions

Add cherry juice and syrup to a 12-ounce glass and top with lemon-lime soda to fill glass about halfway; stir to blend. Fill glass with crushed ice, top off with additional soda, if needed, then squeeze two lime wedges in and drop them on top; add a maraschino cherry and straw.

#### Notes

Notes: I use Sierra Mist Natural. Good choices for commercial cherry syrups are DaVinci, Torani, Hawaiian Shaved, Juicy Juice and other snow cone brands of syrup. If you want to go for a pitcher, a 1/2 gallon is 64 ounces, or a little more than 5 of these 12-ounce glasses.

### Grasshopper Pie

#### Description

yesterday I was craving something minty, fresh, and cold. I was fresh out of vanilla ice cream, so I decided to whip up a Grasshopper Pie, circa...well, I can't exactly say from what era Grasshopper Pies originally hail. So I'm just gonna go out on a limb and assign it to the seventies. It's the decade responsible for most of my favorite foods.

#### Ingredients

- 16 Oreo cookies
- 2 tbsp butter
- 1 jar of Marshmallow fluff
- 2/3 cup half & half
- 2 tbsp Creme De Menthe Liqueur - more to taste
- 2 tbsp Creme De Cacao Liqueur
- few drops of green food coloring
- 1 cup heavy cream

#### Instructions

Throw the cookies and melted butter into a food processor and pulverize (or, if you have some aggressions or energy to expend, you can crush them in a large Ziploc bag.)

Pour into a pie pan and press into the bottom and up the sides of the pan. Set aside.

Heat marshmallows and half-and-half in a saucepan over low heat, stirring constantly.

As soon as it's all melted and combined, place saucepan in a bowl of ice to cool down quickly. (Stirring occasionally will hasten this process.)

Once cool, add creme de menthe and creme de cacao. Taste and add more creme de menthe if needed.

Add one to two drops green food coloring (optional!)

In a mixing bowl, beat whipping cream until stiff.

Pour cold marshmallow mixture into the whipped cream and fold together gently

Pour filling into chocolate crust (note: you might have a good 1/2 cup filling left over, depending on the size of your pie pan!)

Sprinkle extra chocolate crumbs over the top.

Place pie in the freezer and freeze until very firm, at least two hours.

Remove from freezer ten minutes or so before you want to slice and serve.

### Homemade Coffee Creamer

**Source:** Laura's Sweet Spot

#### Description

You get something that is deliciously sweet and creamy that is made from real ingredients. Yes, it uses sweetened condensed milk which is processed, but at least it's made from dairy! And I won't lie to you by telling you that it is an exact substitute for the flavored creamers that you can buy, but it is a good alternative. I use it every day now and keep extra cans of sweetened condensed milk lying around for emergencies. I always use just regular sweetened condensed milk and half-and-half. I find that the half-and-half gives the creamer a thicker consistency. If you use skim milk it will be very runny and just not taste as good... but yes, you will certainly save in those calories. And word to the wise- find a nice glass container or jar that you can store this in. It gets very sticky from any drips, and it settles while it sits in the fridge, so it always need to be shaken or stirred before using (I always whisk it back up, shaking doesn't get everything recombined as well).

#### Ingredients

- 14 oz sweetened condensed milk
- 14 oz milk whole, or half and half
- 2 tsp vanilla extract OR Vanilla Coffee Syrup for a stronger flavor

#### Instructions

Pour all ingredients into bowl and whisk until well combined. Store in airtight container/jar and shake before each use.

### Mango Margaritas

#### Description

I absolutely love this cocktail. It's very, very flavorful and very, very, very, very, very, very easy to whip up. And it's extra delicious because instead of putting salt on the rim (which I do not like; call me margarita flawed) I do a nice, unapologetically thick rim of lime-spiked sugar.

#### Ingredients

- 2 limes
- 2 tbsp coarse sugar
- 2 jar 20 oz. Mango chunks drained
- 1 1/2 cup tequila
- 1 1/2 cup triple sec
- 1/4 cup sugar

#### Instructions

Zest the limes and lay the zest on a plate. If you have the time, let the zest dry out for ten minutes or so. Pour the coarse sugar over the zest and toss it around with your fingers to combine. Lime sugar! Yum.

Throw the mango chunks into a blender. Pour in the tequila, triple sec, and sugar. Squeeze in the juice of the limes, then top off the whole thing with ice. Blend it until it's totally smooth. Give it a taste, then add more of what you think it needs (alcohol, sugar, lime, etc.)

To serve, cut a small wedge in one of the juiced limes and rub the lime all over the rim of the glass to moisten. Dip the rim of the glasses in the lime sugar to give it a pretty, crystallly rim.

Pour in the margaritas and serve immediately!

### Michelada Cocktail

#### Description

I think of the michelada as a thirst-quenching cocktail for a lazy afternoon. Hops and carbonation (in the form of beer) are blended with savory-sweet tomato juice to produce a refreshingly spicy drink that goes down fast.

#### Ingredients

- 2 tbsp Bloody Mary Mix
- 1 tbsp fresh lime juice
- 3 lime wedges
- 1 tbsp sea salt
- 1 1/2 tsp Ancho Chili Powder
- 1 Lime Wedge
- 1 tbsp Hot Pepper Sauce Tabasco or Cholulu
- 12 oz Mexican Beer

#### Instructions

Make the salty spicy rim (optional)

1. On a small plate, stir together the salt and chili powder. Moisten the rim of a tall glass with the lime wedge by forcing it onto the rim and running it around the perimeter. Then dip the rim in the salt mixture to coat. Toss the lime wedge to the side for another use or discard.

Make the michelada

2. Pour the tomato juice, lime juice, and hot pepper sauce into a pitcher or very tall glass and stir to mix well.

Divide the mixture among 2 glasses. Add enough ice cubes to each glass to fill about 2/3 full.

Gradually pour in the beer and serve each with a lime wedge on the side.

We think you can take it from here...although be sure to consume your michelada relatively quickly, before the ice has a chance to melt into a puddle and dilute your perfect proportions.

This juice is a favorite. I was looking for a way to sweeten lemonade without using more sugar when I came up with the recipe.

### Raspberry Lemonade

#### Description

so sweet and red and just a bit thick from the raspberry purée.

#### Ingredients

- 1 cup water
- 1 cup sugar
- 1 cup fresh lemon juice
- 1 1/2 cup fresh or frozen raspberries

#### Instructions

Heat the sugar and water over medium heat, stirring often, in a small saucepan until the sugar has completely dissolved to make a simple syrup.

Puree the raspberries in a blender or food processor and pour in the simple syrup and lemon juice.

Add extra water (or Sprite, if you want it fizzy ) to thin it out to the consistency and flavor that you like.

Run a lemon slice around the rim of your glass, dip the glass in sugar, and serve with ice.

#### Notes

I've made this a few times since I first saw the recipe.

The first time I just drank it as is, without adding any extra water or other liquid (it was thick and delicious and what you see in the above photos), but the second time I added in some vodka.

At 2pm on a Sunday afternoon. There is no rule written anywhere that says I can't drink in the middle of the day.  
Quit judging me.

The third time I made this I added an equal amount of Sprite to the lemonade. It was really fun and fizzy and a bit like a raspberry limeade.

Whichever way you make this, it's a perfect drink for summer. Cool, refreshing, and pretty to look at.

### Rummy Bears

#### Description

Aw, how cute, boozy bears! Yes and no. As adorably innocuous as these guys look, be forewarned: they are strong. You will start feeling all giddy after a few, and eventually, they make you go a little crazy. I took these to my friend's birthday party and we all slurped them back like birthday shots. They're not quite a shot's worth each, but almost feel stronger with the sugar factor compounded by the alcohol.

#### Ingredients

- 1 see below

#### Instructions

Empty a bag of Gummi Bears into a jar or bowl or some other vessel.

And they need not even be bears! Really any member of the Gummi Animal Kingdom will do (we also tested Trader Joe's Gummy Tummy Penguins).

Time to select your booze. You could go in many, many directions here. Rum was an obvious choice because, c'mon, Rummy Bears were too good to deny. Let your bar shelf inspire you: try gin, tequila, vodka, Campari, whiskey..

Pour enough liquid over the gummies to completely immerse and cover them, with a little liquid peeking out on top.

How long should they infuse? Many sources suggest three to four days in the fridge.

We left them sitting out on the countertop and after a few hours, their little bear bellies swelled up and they already tasted pretty boozy. Between five to eight hours was the sweet spot for us to achieve the best squish.

The bears will lose their firm chew and take on a texture of jiggly Jell-O. They should still be pleasantly squishy, not liquefied.

Over-infuse them and they'll just become a gelatinous mess of bear ooze.

### Singapore Sling

#### Description

It's a balanced, surprisingly complex drink, made with two types of bitters, gin, fresh lime juice, herbal Bénédictine liqueur, and dark cherry liqueur, mixed and served tall with sparkling water.

#### Ingredients

- 1 1/2 ozs gin
- 1 oz Bénédictine D.O.M.
- 1 oz fresh lime juice
- 1 oz Luxardo Sangue Morlacco
- 2 dash angostura bitters
- 2 dash Peychaud's bitters
- 2 oz cold club soda

#### Instructions

Fill a collins glass with ice and place it in the freezer to chill.

Combine the gin, Bénédictine, lime juice, Luxardo, and bitters in a cocktail shaker and fill the shaker halfway with ice.

Shake vigorously until the outside of the shaker is frosted. Strain into the chilled collins glass over the ice.

Top with the soda water and garnish with the lime twist.

#### Notes

**Bénédictine** is a herbal liqueur beverage developed by Alexandre Le Grand in the 19th century and produced in France.

**Luxardo Sangue Morlacco** Cherry Brandy Italy wines

**Angostura bitters**, often simply referred to as angostura, is a concentrated bitters made of water, 45.6% alcohol, gentian root, and vegetable flavoring extracts[1] by House of Angostura in Trinidad and Tobago. They are typically used for flavoring beverages, or (less often) food. The bitters were first produced in the town of Angostura (Ciudad Bolívar, Venezuela) (hence the name), and do not contain angostura bark. The bottle is easily recognisable by its distinctive over-sized label.

**Peychaud's Bitters**, originally created around 1830 by Antoine Amédée Peychaud, a Creole apothecary from the French colony of Saint-Domingue, now Haiti, who settled in New Orleans, Louisiana, in 1795,[1][2] is distributed by Sazerac.[3] It is a gentian-based bitters, comparable to Angostura bitters, but with a lighter body, sweeter taste and more floral aroma. Peychaud's Bitters is an important component of the Sazerac cocktail.

### Strawberry Nutella Milkshake

#### Description

There are only four ingredients needed to make this glorious milkshake-milk, strawberries, ice cream, and Nutella. Throw everything in the blender and blend until creamy and smooth. You can serve the milkshake plain with no bells and whistles, but I like to go all out. I add a big spoonful of Nutella to the bottom of my glass. I pour the Strawberry Nutella shake over the creamy Nutella and top the shake with whipped cream and chocolate sprinkles. I love sipping up little chunks of Nutella and it is a nice surprise at the end.

#### Ingredients

- 1/2 cup milk
- 1/2 cup Strawberries
- 2 big scoops vanilla ice cream
- 1/4 cup nutella
- 1 whipped cream chocolate sprinkles

#### Instructions

Add milk, strawberries, vanilla ice cream, and Nutella to a blender. Blend until smooth.

Add a spoonful of Nutella to the bottom of a large glass.

Pour the milkshake into the glass.

Garnish with whipped cream and sprinkles.

Serve immediately.

### Sweet Tea

#### Description

Instead of pouring the hot concentrate over ice and sugar, the tea bags are steeped directly in a very basic, boiled simple syrup, that is then left to cool a bit before being transferred to a pitcher, making it a perfect pitcher tea. Since the tea is poured over iced filled glasses, it seems to use less ice and the flavor and strength turned out spot on.

#### Ingredients

- 2 qt water
- 3/4 cup sugar
- 6 individual tea bags

#### Instructions

Combine water and sugar in a large saucepan, whisk together and bring to a boil.

Remove from heat, add the tea bags, cover and steep for 15 minutes.

Remove tea bags, let cool slightly, then pour into a half gallon pitcher.

Do not add additional water or ice.

Pour over ice filled glasses to serve.

Cook's Notes: Double for a gallon. You can also prepare the simple syrup in the microwave if you have a large enough lidded microwave safe container. Two family sized tea bags may be substituted.

### White Russian Milkshake

**Source:** Foodie With Family

#### Description

A White Russian is usually nothing more than coffee liqueur, vodka and heavy cream (or half and half or full-fat milk.) "White Russian Milkshake!" said my brain. I don't drink milk, but if it's blended with a bunch of ice cream, I'll toss it back faster than you can say "You're nuts!" Because the White Russians look so pretty with their black and white layers, I opted to layer my milkshake instead of tossing all the ingredients into the blender willy-nilly.

What was the verdict from this unsophisticated lady? It was darned good. It was slurp it with a straw good. I highly recommend you give this creamy twist on tradition a spin!

#### Ingredients

- 1 1/2 oz Kahlua liqueur
- 1 1/2 oz vodka
- 2 ice cubes
- 1 cup Vanilla ice cream
- 1/2 cup whole milk or half and half

#### Instructions

Add the vanilla ice cream and milk or half & half to the carafe of your blender.

Fix the lid in place and blend until smooth and creamy.

Add the ice cubes to the bottom of a glass, pour both the Kahlua and the vodka over the ice cubes and then slowly pour the vanilla milkshake over the liquor.

Serve with a straw and slurp!
