Butter Steamed New Potatoes

Description

New potatoes are so tiny, and the skins are delicate and edible, and they really are the best potato for this. I do recommend cutting away a strip around the center so that the butter can infuse right into the meat of the potatoes. You can also prepare this with the smaller red potatoes, but for all other types of potatoes, peel and chop those into bite sized chunks. The peeled, buttered potatoes are especially decadent, because they will absorb a lot more of the butter while they cook.

Ingredients

- 2 lb new or very small red potatoes
- 1/2 cup butter
- 1/4 cup water
- 1 tsp salt
- 1/2 tsp pepper
- 1/4 cup chopped fresh parsley

Instructions

Add the butter, water, salt and pepper to a medium saucepan and melt butter over low heat.

Meanwhile, scrub the potatoes and peel a strip away from the center of each potato.

Add to the saucepan, cover, and cook over low for 25 to 30 minutes.

Roll potatoes around in the pan occasionally as they cook, but do not remove cover.

Sprinkle the potatoes with the parsley, toss and transfer to a serving bowl, drizzling the remaining butter from the saucepan over the top.

Serve immediately.

Cook's Notes:

If using larger red potatoes cut into quarters.

Can also substitute any other baking potatoes, but peel and cut those into bite sized chunks.

Adjust cooking times as needed.

Cut potatoes will also absorb more of the butter.

Can also substitute other herbs at the end; try chives, fresh sage, rosemary, thyme or basil, or use a dried herbes de Provence.

- 1 tsp chopped fresh parsley
- 1/2 tsp garlic powder

Crack Potatoes

Description

I decided to mix the dip into a big bag of frozen hash browns. The result? A fantastic potato casserole! We absolutely love this! Chicken Legs requests this all the time. I divided the potatoes up into 3 disposable foil pans and froze them so we always have potatoes when we need them. We just finished off the last pan, so I guess I need to add this to my grocery list this week.

Ingredients

- 16 oz sour cream
- 1 cup shredded cheddar cheese
- 6 oz bacon cooked and crumbled
- 1 pack dry ranch dip
- 15 oz shredded frozen hash brown potatoes

Instructions

Combine first 4 ingredients, mix in hash browns. Spread into a 9x13 pan. Bake at 400 for 45-60 minutes.

Crash Hot Potatoes

Description

They're so simple, it's terrifying. Well, not terrifying...but almost. They're a lovely twist on the tired old baked potato, and they perfectly embody a quality I always strive to achieve in my cooking: Flavorful, Crispy Surface Area.

Ingredients

- 12 new potatoes
- 3 tbsp olive oil
- 1 crumbled gorgonzola

Instructions

Bring a pot of salted water to a boil.

Add in as many potatoes as you wish to make and cook them until they are fork-tender.

On a sheet pan, generously drizzle olive oil.

Place tender potatoes on the cookie sheet leaving plenty of room between each potato.

With a potato masher, gently press down each potato until it slightly mashes, rotate the potato masher 90 degrees and mash again.

Brush the tops of each crushed potato generously with more olive oil.

Sprinkle potatoes with kosher salt, fresh ground black pepper and fresh chopped rosemary (or chives or thyme or whatever herb you have available.)

Bake in a 450 degree oven for 20-25 minutes until golden brown.

Remove the pan from the oven and turn the broiler to High.

Place the Gorgonzola or shredded cheddar crumbles on top of the potatoes according to how much bleu cheese you like.

Return the pan to the oven and broil until the cheese melts and gets just a couple little golden brown toasty bits.

Remove the pan from the oven and let the potatoes rest for 3 minutes before serving.

Fool Proof Scalloped Potatoes

Description

Scalloped potatoes are an all time favorite ~ creamy, bubbly, golden brown and delicious. They're also the perfect choice when entertaining because they pair so well with so many foods, can be made in advance and just about everyone loves them. This recipe is slightly adapted from Julia Child's basic scalloped potato instructions. Keep it on file for perfect results every time.

Ingredients

- 2 1/2 lbs Yukon Gold Potatoes
- 3 tbsps butter
- 2 cloves garlic, finely minced
- 1 cup whole milk

Instructions

1. Preheat the oven to 425°F. Peel the potatoes and cut them into 1/4-inch thick slices.
2. Melt 1 tablespoon of the butter over low heat in a large oven-proof skillet. Add the garlic and distribute evenly over the bottom pan. Place a single layer of potato slices in the pan, season with salt and pepper, and repeat with remaining potatoes, making sure to season between the layers.
3. Separately heat 1 cup of milk and pour it over the potatoes. Add more milk as needed, to come 3/4 of the way up the layers of potatoes. Bring the mixture to a simmer on top of the stove.
4. Cut the remaining 2 tablespoons of butter into 1/4-inch pieces and distribute evenly over the top. As soon as the top layer of butter has melted, place the pan in the oven and bake for 20 to 30 minutes, or until the potatoes are tender when pierced with a knife and the top is bubbly and brown.

Notes

4. Top with crumbled bacon and grated fontina cheese.

Hasselback Potatoes

Description

Scalloped" is an attractive word, isn't it? When I hear it I think of several things: first, there's scallops, as in the seafood—totally delicious. Then there's the scalloped shape that can live on the edge of a pair of shorts or on the collar of a woman's blouse—always pretty and dainty. And of course scalloped potatoes also comes to mind, which carries my imagination to a land of crispy potato skins drenched in a sea of cheese and cream. I can think of no better place to exist, actually.

Flip one more time and cook for 15 minutes longer. Bacon should be crisp at this point.

Salt Potatoes

Description

So, what's the difference between a mere boiled potato and a salt potato? A boiled potato is dropped into plain or lightly salted water, boiled until tender and served, usually, with butter and chopped herbs. Salt potatoes, on the other hand, use a formula to determine how salty the water should be. Generally speaking, bring to a boil three quarts of water, stir in three-quarters of a pound of good old-fashioned table salt, then carefully lower in four and a quarter pounds of Size B new white boiling potatoes. When they're tender, drain in a colander and let air dry a bit to form that signature white dusting of salt. Top with butter and serve hot, warm, cold or anywhere in between. Then die of happiness when you take your first bite.

Ingredients

- 3 qt water
- 1 1/2 cup kosher salt
- 4 1/2 lb 2 bite new potatoes washed
- 1 stick butter cut into 8 pieces

Instructions

Bring water to a boil in a large stockpot or soup pot over high heat.

When water reaches the boil, stir in all of the salt.

Lower the potatoes into the water, one or two at a time, taking care not to splash yourself.

Return the water to a boil, lower heat to medium and simmer until the potatoes are tender, between 15 and 25 minutes,

Depending on the size of the potatoes. (**See notes for methods on testing the potatoes for doneness.)

Pour the water and potatoes into a colander in the sink and leave to air dry for 5-10 minutes.

Transfer the potatoes to a serving dish and dot with the pieces of butter.

Serve as is or garnish with chopped parsley.

To Store Leftovers:

Pour potatoes and butter from the bowl into a container with a tight fitting lid or a zipper top bag.

Notes

*Salt potato kits, sold all over Upstate New York, use a very specific size of potatoes; Size B, Grade US no. 2. While most grocery stores don't define their potatoes using this method, you can't go wrong buying small creamer potatoes that are one-or-two-biters. The shape of the potato doesn't matter at all.

**To test your potatoes, use tongs to lift a large potato from the boiling water. A skewer plunged into the potato should pass through the potato completely if it is done.

Sour Cream and Onion Oven Fries

Description

This seasoning is sooo super simple. You just toss a bunch of stuff together, rub some oil into potato wedges, then sprinkle the seasoning on top and bake away. It's not as artificially foul-smelling as the store bought stuff either.

Ingredients

- 2 1/2 lb Yukon Gold Potatoes cut into wedges
- 4 tbsp olive oil
- 2 1/2 tbsp powdered buttermilk
- 1 1/2 tbsp onion powder
- 1 tsp salt
- 3/4 tsp garlic powder
- 1/4 tsp pepper
- 3 1/2 tbsp freshly chopped dill
- 2 tbsp grated parmesan cheese

Instructions

Preheat oven to 450 degrees F. Line a baking sheet with aluminum foil and place a wire rack on top. Spray with non-stick spray.

Add potato wedges to a large bowl and coat with olive oil, using your hands to toss in order to coat evenly.

In a small bowl, combine powdered buttermilk, onion powder, garlic powder, salt, pepper and dill together and mix well.

Sprinkle three quarters of the mixture evenly over the potato wedges, coating completely.

Place potatoes on the wire rack and sprinkle with parmesan.

Bake for 20 minutes, flipping and tossing once, then for 15-20 minutes more, until golden and crispy.

Remove and immediately toss with remaining sour cream and onion mix, and even more fresh dill. Serve immediately!

Note: I found powdered buttermilk in the baking section of my local grocery store!
